ID	Activity 1	Activity 2	Activity 3	Activity 4	Activity 5	Activity 6
39582604	- Act in the video - Edit video	- Create interview template - Create consent form - Conducted interviews - Create Personas - Create scenarios - Create HTA - Develop use case diagram - Create presentation	- Create storyboard -Gave feedback about the designs	---	---	- Contributed to the evaluation of the high-fidelity interface
39606201	- Act in the video - Made the script direction and editing notes	- Conducted interviews -Made questionnaire -Created the list of functional, non-functional and usability requirements	- Created the good design 2 with description, justification and formal evaluation -Created the final low Fidelity prototype with justification and description of iterations -Gave feedback about the designs	- Created the customer empathy map -Created the customer journey map	---	- Evaluated the high-fidelity interface developed in the last phase -Created the report with goals of the evaluation, participants, apparatus, procedure, results (with adequate tables and graphs), results discussion and reflection on usability results.
39582817	-Acting in the video and giving ideas about script	-Conducted interviews -Justification for the requirement gathering methods	-Creation of the presentation -Gave feedback about the designs	---	---	-Justifying particular evaluation methods and why they are useful in this context. -Contributions to the heuristic evaluation
39582744	- Acted in the video - Helped at filming the scenes	-Helped at organizing teamwork and interviews	-Created good design 1 with description, justification and formal evaluation -Gave feedback about the designs	---	-Developed the high-fidelity Figma Prototype	-Contributed to the evaluation of the high-fidelity prototype
39582566	-Filmed all the scenes - Contributed to script	-Conducted interviews - Create consent form - Conducted interviews - Create Personas - Create scenarios - Create HTA	-Gave feedback about the designs	---	-Developed the high-fidelity Figma Prototype	-Contributed to the evaluation of the high-fidelity prototype
39577023	-Acted in the video and gave ideas for the script	-Conducted interviews -Justification for the requirement gathering methods	-Created bad design with description, justificaion and formal evaluation -Gave feedback about the designs	---	---	-Contributed to the evaluation of the high-fidelity prototype
